THE COMPACT AND ABSOLUTE pH ADJUSTMENT SYSTEM THAT CONQUERS PUMP ROOM SIZE LIMITATIONS

Meet the youngest of the family!

See the eye-opening benefits of the Acid-Rite® 450

- Uses red sodium bisulfate tablets.
- Enhances chlorine efficacy in water.
- Low odor.
- Low maintenance.
- Very easy to use.
- Extremely secure.
- Footprint of Unit:
35.56 cm / 14" wide x
50.8 cm / 20" long x
111.76 cm / 44" high.

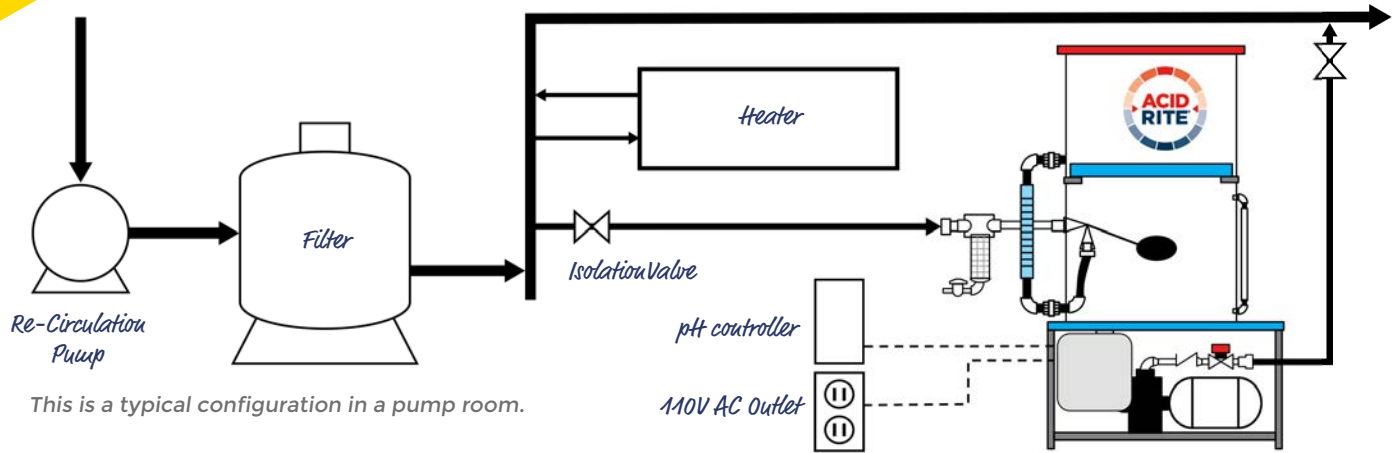

Stacking cartridge included for additional dial-in capability.

A compact and effective alternative to bulky liquid acid systems!

Utilizing red Acid-Rite sodium bisulfate tablets, the feeder system fits easily into the pump room making it a convenient and more manageable option for acid adjustment.

ACID-RITE® WATER ADJUSTMENT SYSTEM INSTALLATION AND SPECIFICATION

This is a typical configuration in a pump room.

Pool Size

- Outside: up to 757,082 litres / 200,000 gallons
- Inside: up to 1, 135,623 litres / 300,000 gallons

Acid-Rite Tablets

- 99.97% Sodium Bisulfate
- 3-inch diameter (200 grams)
- Red color for safety
- 45-lb / 20,45 kg pails

Acid-Rite Unit Size

- Footprint: 50.8 cm/20" length x 35.56 cm/14" width x 111.76 cm / 44" height
- Flow Rate: 0- 5 gpm
- Tablet Capacity: up to 18 kg / 40 lbs
- Supply/Discharge Pipe Size: 2.54 cm / 1"

No metering. No mixing. No contest.

Lightens the load on pool operators from safety, handling and maintenance, to creating a pleasant workplace environment. See for yourself

Safety 	Handling 	Maintenance 	Material Compatibility and Corrosivity 
Solid chemical made of sodium bisulfate with no dual containment.	Easier to handle 20.45 kg. resembles pails.	Acid feeders rarely require cleaning or maintenance; no small tubing that can kink and crack.	Tablets have low odor and are red in color to help eliminate inadvertently mixing of chemicals.
Strong odor/ fuming; potential liquid spills.	205 L. drums weigh more than 240 kg.	Feed pumps need frequent repair and tubing can leak.	Strong corrosive liquid with strong noticeable odor; leaking tubes or feed pumps can attack equipment room.
Bags are difficult to cut and empty; powder can accumulate on surfaces.	25 kg. bags are awkward and difficult to handle, not resealable.	Feed pumps need constant repair and tubes plug regularly; mixing motors fail.	Powdered acid and leaking tubes can attack mixing motors and equipment.

Muriatic Acid

Granular Sodium Bisulfate
